

1. Background

Figure 16 shows domestic (blue), export (red), and import (patterned gray) movements for agricultural, petroleum, manufactured goods, and machinery commodities in short tons (millions). Categories include crude petroleum, distillate fuel oil, sand & gravel, gasoline, soybeans, wheat, petroleum coke, animal feed, corn, manufactured products, electrical machinery, rubber & plastics, and vehicles & parts.

PASS

2. Text Contrast

The figure uses dark-gray labels on a white background, which provides high readability. Contrast Measurements: Computed WCAG Contrast Ratios (Figure 16): • Blue vs White: 3.78 • Blue vs Black: 5.56 • Red vs White: 5.19 • Red vs Black: 4.04 • Gray vs White: 2.07 • Gray vs Black: 10.13 Gray–white contrast is below AAA, but since gray is used **only for data bars and not text**, this does not violate ADA text contrast rules.

PASS

3. Graphic (Slice) Contrast

Blue, red, and patterned gray bars remain visually distinct. The hatch pattern for imports prevents confusion even where contrast is low. This fulfills non-text contrast guidance.

PASS

4. Color-Blind Safety

The three movement types use redundant color/pattern encoding. All remain distinguishable under simulated red-green, blue-yellow, and monochrome deficiencies. No data meaning relies solely on hue.

PASS

5. OCR / Text Size

All labels (axis titles, commodity names, group labels) are large enough for OCR extraction. Slanted labels remain readable. Text placement does not overlap bars, supporting accurate screen-reader extraction.

PASS

6. Blur & DPI

All elements appear crisp. Hatch patterns do not break down at this resolution. A 300-DPI export is still recommended for congressional or archival accessibility standards.

PASS

7. Alt Text Recommendation

“ Bar chart titled ‘ Short Tons in Millions for Domestic, Export, and Import Commodities. ’ Domestic commodities (blue) include crude petroleum (~16M tons), distillate fuel oil (~6M), sand & gravel (~6M), gasoline (~6M), and residual fuel oil (~4M). Exports (red) include soybeans (~14M), wheat (~11M), petroleum coke (~7M), animal feed (~6M), and corn (~6M). Imports (patterned gray) include crude petroleum (~36M), manufactured products (~17M), electrical machinery (~8M), rubber & plastic products (~7M), and vehicles & parts (~6M). ”
